K4 ANALYTICS[®]

WE MAKE YOUR ANALYTICS ACTIONABLE

Budget, reforecast, P&L, simulation, Smart Data-Entry, audit trail, workflow, allocations, top-down & bottom-up, distributed process...

KT Labs

Leverage **K4 Analytics** and build the missing link between your preferred BI platform and Enterprise Databases, contributing to your Corporate Performance Management.

No more spreadsheet anarchy and finally effortless real-time data consolidation: you will continue to use your Excel models but we will make them dynamically integrated with the data-sources, with the ability of editing the data and saving back on the fly to the central database(s).

Enjoy Smart Data-Entry, master numbers and simulation thanks to rich features such as locked totals, copy from, top-down input, allocation drivers... Just add full audit trail, integrated workflow control and real time collaboration, this is **K4 Analytics**!
